

CHAMPIONS OF CHANGE

2021

December 2021

WHO WE ARE

The Aditya Birla Education Trust marks the foray of the organization into the field of education. Since its inception, it has always strived to nurture young minds. Aditya Birla Education Trust is a body registered under the Bombay Public Trusts Act 1950 at Mumbai.

Mrs. Neerja Birla is the *Founder and Chairperson* of the Trust. The Trust consists of five units:

Aditya Birla Education Trust

VISION

Mpower was born with the aim to **#StampOutStigma** and encourage open dialogue around Mental Health, so that individuals could have the right to a fulfilled life, sans any bias, discrimination, or shame - regardless of socioeconomic boundaries.

Mpower hopes to bring about a change in the public perception regarding people coping with mental health concerns and facilitate recovery without facing discrimination or shame, while simultaneously affecting policy and public life change.

Our mission is to empower individuals and their families with mental health concerns by creating awareness and alleviating stigma; advocating prevention, fostering education, and providing world-class holistic services so that they may lead meaningful and productive lives with respect and dignity. We achieve this by

Creating Awareness

Fostering Education

Advocating Prevention

Providing Services

MISSION

From the Chairperson's Desk

Optimism is the faith that leads to achievement. Nothing can be done without hope and confidence – Helen Keller

In the recent years, we've really seen a paradigm shift in the field of healthcare with an increased focus on health and fitness beyond just curing illness and instead on actively working towards a preventive, holistic lifestyle. A healthy body needs a healthy mind and finally, the spotlight is on mental health as well.

In India, the Mental Health Act was passed in 2018 and is in the final stages of implementation across 29 states. While these are great steps in the right direction, deep-rooted stigma, lack of awareness and lack of access to mental healthcare stand in the way of any true progress.

Mpower is an on-going endeavour to be the movement to affect that change and we are determined to keep chipping away at this resistance in our humble way.

Do join our mission so that together, we can work towards creating a sound ecosystem for mental health in India – so that we can become a stigma-free society where mental healthcare and well-being is a priority for everyone.

Let us
#StampOutStigma together.

Neerja Birla

Mental Health in India

It is estimated that just over 1 in 10 people in India have a mental health issue.

0.8% Indians have a common and severe mental health disorder.

1 in 20 people in India suffer from depression.

1 in 10 people makes it
130 MILLION
people with mental health concerns.

Impact of COVID-19

With the world being engulfed in a pandemic, mental health emerged as the pandemic within the pandemic, with individuals the world over, seeing exacerbation of existing concerns as well as new mental health concerns coming to the forefront. Mpower emerged as a forerunner and frontliner with its timely response through various initiatives.

That's a great initiative by Mpower minds .. Mrs.Birla xplained the issues regarding stigma and awareness of mental health in a very simple language which shows her compassion towards mental health. Thank you mam for enlightening on this topic!

Shri Kant Yadav 9 months ago

Wow!! Very informative and explained the things in very lucid and fantastic way. No words for Amitabh Bachchan Sir! He is always ready for social causes of the country. Mrs. Neerja Birla is expert in the Mental health. Very expressive, explained in fabulous way. Deadly combination, it will creat impact on the society.

Dinesh Choudhary 9 months ago

It's a great, eye opener & impactful conversation!! Kudos to both of u for enlightening the world like never before!! Ma'am u have revolutionised mental health issue. More power to u. 🙌🙌🙏🙏

#PledgeForMentalHealth

World Mental Health Day 2021

On World Mental Health Day, Mpower announced a call to action for Corporates based in India, urging them to take the **#PledgeForMentalHealth**. This was primarily to drive awareness among corporate enterprises around the mental wellbeing of their internal customers i.e. employees. Diverse Corporates came forward to show solidarity towards the cause and pledged to dedicate efforts to ensure mental wellbeing of their respective employees on a priority. 19 leading organisations ranging from start-ups to social enterprises, education institutions to large corporates such as Aditya Birla Group (ABG), Pantaloons, Group M, Schbang, Asian Venture Philanthropy Network (AVPN) Asia took the pledge for mental health.

A VIRTUAL SUPPORT GROUP TO DEAL WITH GRIEF AND BEREAVEMENT

15th May, 2021 | 5.30 PM - 6.30 PM

www.mpowerminds.com

Mpower collaborates with Mumbai Police

Project Saksham is a joint initiative between the Mumbai Police and Mpower with the objective of providing counselling and mental health support to women who are victims of violence, rape, molestation or any such offence. At the same time, it will attempt to curb recidivism by counselling the perpetrators/suspects as well.

- Project Saksham will also impart specialized training and enhance the skills of police personnel in being the crucial first point of contact in putting the victims at ease and dealing with them with utmost sensitivity.
- Project Saksham will cover all five regions of Mumbai. Trained professionals from Mpower will be deployed in each region at designated locations, six days a week.
- Forensic/criminal psychologists will provide services to the victims as well as to those identified by police as high-risk repeat offenders. Mpower will provide psychological rehabilitation and mental health services

Mpower collaborates with Government of Maharashtra

*Aim to benefit over **2.5 lac.** individuals in collaboration with 40 Primary Health Centres*

We launched of Project Samvedna with the Government of Maharashtra.

Under this project, we will be closely working with 40 Primary Health Centres (PHCs) to aid the District Mental Health Programme (DMHP).

Our main objective is to increase awareness and outreach to rural areas through various workshops, high-quality clinical services and other community engagement activities.

Mpower collaborates with Municipal Corporation of Greater Mumbai

Aim to train over 10,000 teachers in collaboration with 1,138 MCGM schools which will impact over 2 lac. students

Through Project Oorja, we ultimately aim to bring about an improvement in the mental well-being of the school children. We shall accomplish this by -

- a. Creating Awareness around mental health concerns by training teachers on mental health literacy and mental health first aid.
- b. Providing clinical interventions by establishment of counselling cells in schools through our trained Psychologists.
- c. Building the capacity of the school teachers through our Mental Health e- curriculum Mindsmatter, enabling them to deliver this curriculum in a sustainable manner in the future to support and develop mental health awareness, prevention and management skills amongst students across grade I to X.

Mpower collaborates with Central Industrial Security Force

Project MANN launched to increase mental health awareness, provide support to and to build capacity of the Central Industrial Security Force.

Although the general perception of mental health has improved over the past decades, yet not all individuals with mental health concerns seek services as the stigma against mental illness is still powerful. With the current worldwide pandemic, our mental health has become most vulnerable and this is the time that we all talk openly about mental health and access the services without feeling any shame or fear of ridicule.

Mental Health Curriculum

Minds Matter

As an initiative to deal with growing mental health concerns in schools and provide resources for early prevention, identification and intervention; Mpower, has developed a comprehensive research-based mental health curriculum 'Minds Matter' for schools to create awareness, advocate prevention, foster education and provide service.

The curriculum is adapted during school hours and is progressively designed to be conducted across all levels of education from grades 1 through 12. The curriculum holistically looks at different aspects of a learner's life focusing on improving their social, emotional and psychological well-being. The Minds Matter curriculum is shaped on the Intervention Model provided by the World Health Organization (WHO) for mental health program in schools and is designed to provide adequate and appropriate interventions

Mental Health Curriculum

Minds Matter -Testimonials

When our school introduced Minds Matter Health Curriculum to us, I was so excited to know more about this curriculum and its impact on me. I was very curious to know how my mind impacts my health. Through the sessions, I started understanding the importance of mental health and how I can take care of the mental health of mine and the people around me. Learnings from these sessions are so helpful for me in my personal and academic development. In many ways, learnings from these sessions are helping me. I came to know my strengths, know myself better, strengthen my coping mechanisms, become more aware about myself, able to take care of my physical and mental health on daily basis, explored my self-Identity, able to concentrate better, can keep myself motivated and so on. I feel more positive, calm, relaxed, and confident nowadays. Thank you everyone for such an insightful curriculum.

Rudraa Vasava, Class 6/A

I am a student of class 9/A, I thoroughly enjoy Minds matter health curriculum sessions conduct by Megha Ma'am in our regular counselling classes. I truly say the sessions are amazing, very interactive, interesting, and motivational. After participating in various activities under different topics I felt more confident, realised self-worth, started believing in myself and still gaining new learning on daily basis. This class is a mind developer class. I also thank ma'am for teaching us these interesting concepts using creative mediums. I personally have so many learnings through these sessions like how to strengthen myself to deal with daily challenges, develop a positive attitude, become persevere, be hopeful in each situation, keep self-motivated. I have noticed positive changes in me like I have improved my concentration, personal and academic growth, became aware of my own values, started focusing on self-care and started feeling more confident and calmer than before etc. I really like to attend these classes. I Feel very energized and good after these classes. I am very thankful to our respected Principal ma'am Ms. Shirley Vaz, Minds Matter Team & Counsellor ma'am for introducing this vital curriculum to us.

Prachi Desai, Class 9/A

.@mpowerminds People battling mental health issues must know that they are not alone. Too many lives have already been lost because they felt no one was listening. Let's #SpeakUpWithMpower and let people know that WE are listening.

It's ok to not be ok but it's not ok to not seek help. Let's #StampOutStigma against Mental Health. Take a photo with a placard that says 'It's ok to not be ok' & challenge your friends to do the same.
I challenge @hvgoenka @ajinkyarahane88 & @Aauthackeray to raise their voice

Events & Campaigns

The Happy Place

A student-led mental health festival organised as a collaborative event between Mpower and the Aditya Birla World Academy to give students a platform to voice their opinions about mental health concerns.

#StampOutStigma

Mpower was launched in 2017 with an eye-opening video which urged individuals to speak up, and not suffer in silence.
