Be a Mental Health First Aider

Youth Mental Health First Aid training is 14 – hours of training that teaches participants how to provide initial support to a young person who may be experiencing a mental health problem, or mental health crisis, until professional help is received or the crisis resolves, using a practical, evidence-based Action Plan. The principle of Mental Health First Aid can be applied to all age groups.

What will I learn in a youth Mental Health First Aid course?

The course is based on guidelines developed of mental health problems and professionals. It provides an overview of mental illnesses, risk factors, prevalence, and impact before taking a much closer look at the following mental health problems:

Depression

Panic attacks

Anxiety

Eating disorders

**Suicidal thoughts
and behaviours**

A Youth Mental Health First Aid course also looks at how to apply mental health first aid in a range of crisis situations, including suicidal thoughts and behaviours, panic attacks, aggressive behaviours, and severe psychotic states.

Why attend a youth Mental Health First Aider course?

Evaluations consistently show that by attending a course, participants improve their knowledge of mental illnesses, their treatments and appropriate mental health first aid strategies. Course participants also report improves confidence in providing mental health first aid to individuals and by improving mental health literacy, much of the stigma surrounding mental health problems is reduced.
